FOR IMMEDIATE RELEASE

Greater Access to Information through Resident Magistrates' Courts Website

The public now has even greater access to the island's Resident Magistrates' Courts (RMC) through a user-friendly, contemporarily designed website which may be viewed at www.rmc.gov.jm.

The RMC website hosts a wealth of information about the courts to include judgments, court forms, publications and general information about its operations. It is expected to help visitors understand the workings of this type of court while offering key stakeholders of the justice sector a point of reference for their queries, suggestions and concerns.

This move forms part of the courts overall commitment and thrust to making information more accessible to the general public by leveraging technology, thereby furthering the process of justice through improved education strategies. For further information persons may call 1-888-429-5269 or email customer care at customerservice@cms.gov.jm
